The power of action.

Renew Boston Home Energy Services Program

Mayor Thomas M. Menino's Renew Boston initiative has partnered with Mass Save, NSTAR and National Grid to provide Boston owners and renters* with:

- **No-cost home energy assessments** to identify energy saving improvements
- **No-cost compact fluorescent lights** (CFLs) to start saving energy immediately
- **75%**—up to \$2,000 off—for insulation improvements
- **Generous rebates** for high efficiency heating, cooling and hot water equipment
- **0% financing** offered through the HEAT Loan Program on heating system replacements and other energy saving improvements

***Program Eligibility Requirements**

Residents must live in a single family home or a multi-family building with no more than four units to qualify. Customers must meet program eligibility requirements to participate. Some restrictions apply and offers are subject to change or cancellation. Eligibility for rebates/incentives is based on findings from the home energy assessment. No-cost air sealing is targeted based on findings of the energy specialist. Incentives for insulation improvements include 75% of the cost—up to \$2,000—for qualified measures. HEAT Loan financing is subject to approval from a participating lender. Residents receiving fuel assistance or the utility discount rate may qualify for additional incentives based on their income.
